

BAUHAUS CASE INSTRUCTIONS FOR SETTING COMBINATION LOCK

1 - These cases come with a pre-set combination of 000. Make sure both locks open with this combination - push button "A" outwards away from arrow - to open.

2 - The latches "C" must be closed when you change the combination. Push button "A" in the direction of the arrow (towards the dials "B") as far as it will go and hold it there.

3 - Change the numbers on the dials "B" making sure that all three numbers are accurately aligned and keeping button "A" pressed in the direction described. Make sure it is a number you will remember.

4 - Release button "A" when you have finished. Open the latch to make sure the combination is set.
